

FOR IMMEDIATE RELEASE

2015 NATIONAL FAME AWARD CEREMONY HELD

SCOTTSDALE, Az. – Jan. 12, 2015 – Basic American Foods, Schwan’s Food Service, Inc., and Tyson Foods, Inc., sponsors of the 26th annual **Foodservice Achievement Management Excellence (FAME) Awards** honored 7 professionals at an award ceremony Jan. 11, 2015 at the Omni Resort & Spa at Montelucia in Scottsdale, Az. during the School Nutrition Association (SNA) School Nutrition Industry Conference (SNIC).

The FAME Awards most prestigious honor – the **Golden School Foodservice Director of the Year Award** – was presented to Jeff Denton, director of child nutrition, Ponca City Public Schools, Ponca City, Okla.

Denton was recognized for his commitment to innovation in child nutrition in his 25-year career as a food service director. He is passionate about helping students understand the benefits of healthy food options and has worked to increase fruit and vegetable consumption by 60 percent over 4-years. He does this through personal interaction with students at all grade levels, teaching them to take responsibility for the foods they eat.

Chef Denton has had to overcome adverse conditions in his district when he was challenged with shrinking enrollment and state mandates for lower income students that went unfunded. He was able to increase participation by creating a “layers of flavor” concept with redesigned bid documents for better pricing and incorporating ways to convert students from a la carte to participation in solid reimbursable meals.

Denton has been applauded by his district’s leadership for overcoming increased costs, loss of students and continuing to keep a positive cash flow for the child nutrition program. Many districts visit Ponca City Public Schools to observe methods and operations to implement and enjoy the same level of success. His most recent challenge came from a district-directed increase in salaries and equipment improvement costs to adhere to new guidelines for aging equipment. He was able to meet these budget requirements for salaries and equipment while starting the year with a \$750,000 surplus for the child nutrition program.

Innovative is one of many words of praise that colleagues use to describe Denton. He has been able to create two major production kitchens and one small kitchen site to feed over 6,000 meals daily. The uniqueness of this allows elementary sites to offer eight protein selections and two fruit selections. Often, two vegetable selections are available to these sites as well.

Denton has served as President of the School Nutrition Association of Oklahoma for four different terms and has also served as the state Legislative and Public Policy Chair for many years. He personally led the charge to hire a paid state lobbyist to champion Child Nutrition in Oklahoma. He is a passionate innovator in the industry and has earned this recognition.
